

SHARP

Be Original.

Workspace Protection is not Guesswork. It is a Specialized Strategy.

Surface Protection

Air Protection

Delivered by Sharp Expert Professionals at your premises

simply better **business**

Keeping offices safe and hygienic for employees by taking care of surface and air-borne related issues is crucial.

But existing Sanitization, Disinfection and Air Purification Services are limited.

-  Alcohol-based sanitizer unsafe against fire
-  Daily sanitization cannot access all areas
-  Existing deodorants fail to remove adhering odor fully
-  Cleaning services cannot prevent mold growth in highly humid areas
-  Workplaces not protected from airborne cross infections
-  No comprehensive solutions that work 24/7

INTRODUCING

from SHARP is an advanced disinfection solution with a three-pronged action that works powerfully on surface and air-borne related issues.

Advantages of 3D Secure by SHARP

GERM FREE

- Comprehensive solution for airborne & surface germs
