

## Electronic design company resolves print security issues, client billing issues and anywhere print with Sharp MFPs and Accounting Software.

### The Challenge

IT electronic design company who has multi-location setup provides electronic design services to companies around the globe. They print huge volumes of printing for tender submission and project reports to various customers. It was difficult to take a secure print with their existing setup. They were facing issues with the monitoring and chargeback to their clients based on the usage of MFP and print access in multi-locations.

### Technology Solution from Sharp

Sharp has provided 21 nos. of MX-M356NV Sharp MFPs with Accounting Software and Follow Me (Print from any location). Based on the usage they generate client billing for various Tenders/Projects.

Relying on un-secured network-based MFPs, IT Electronic Design Company who has multiple campuses faced print security and client billing Issues. With the help of Sharp A3 Mono Laser MFPs combined with Accounting Software they were able to overcome those issues.

### Industry

IT Electronic Design
