

## Plywood manufacturing company resolves printer optimization, user wise tracking and secure print issues with Sharp MFPs and Accounting Software.

### The Challenge

A leading manufacturer of plywood having offices across India, they have multiple printers and MFPs plywood manufacturing company in each group companies and then the management has decided to consolidate all the offices and bring them under one roof. Printer optimisation, secure print access and user wise reports were the challenges.

### Technology Solution from Sharp

Sharp has provided 9 nos. (MX-M356NV -4, DX-2500N-5) of Sharp MFPs with Accounting Software and Follow Me (Print from any location). They imposed user-wise restrictions and quota management to control usage.

Relying on individual unsecured network-based MFPs led to issues with print security, growing recurring cost and print wastage. With the help of High-Quality Sharp A3 Color & Mono Laser MFPs combined with Accounting Software, they were able to overcome those issues.

### Industry

Plywood Manufacturing

### Challenges

- Secure print
- Centralized print monitoring and controlling
- Print release on different floors

### Solutions

Highest Configuration of Sharp A3 Colour/Mono MFPs and Accounting Software with Centralized Monitoring Facility.

### Benefits

- Complete monitoring of print usage
- Reduce paper wastage
- Printer optimization
- Reduce operating cost by 80K-100K per annum
