

Construction & Infrastructure Company resolves Low-speed Scanning and Frequent Service Issues with Sharp High-end MFPs.

The Challenge

Construction and Infrastructure company who is into construction of Road, Rail, Irrigation, Power, Metal and Mining projects in India and Abroad. Customer has site offices across India in remote locations for various infrastructure projects. Printing and Scanning is very critical during pandemic and they were facing issues with the frequent breakdown of MFPs due to low capacity and low speed MFPs which was affecting the productivity and ontime communications.

Technology Solution from Sharp

Sharp has provided 25 Nos. of MX-M265NV with SRDM (Sharp Remote Device Manager) admin utility software to check the health of MFPs across locations from centralized office. With High-speed Scanning and Scan to Multiple Destinations, it is convenient to send scanned documents to email and network folders.

Relying on entry-level multifunctional printers, the Construction and Infrastructure Company was facing difficulties with low-speed scanning and service issues at remote locations spread across India. With the help of high quality, high volume Sharp A3 MFPs combined with SRDM (Sharp Remote Device Manager), they were able to resolve frequent breakdown of MFP and low-speed scanning.

Industry

Construction & Infrastructure

Challenges

- Secure Print
- Low-speed Scanning of Sensitive Docs
- Frequent breakdown of MFP due to low-capacity MFPs.

Solutions

Highest configuration of Sharp A3 MFPs and SRDM (Sharp Remote Device Manager) with Admin Utility Software.

Benefits

- High Speed Printing & Scanning
- Print Control & Monitoring
- Fleet Management & Centralized Health Check of MFPs
- Smooth operations due to high-capacity MFPs.
