

FMCG Company Resolves Print monitoring and Frequent Breakdown Issues with Sharp MFPs and Job Accounting Software

The Challenge

FMCG Company who has multilocation manufacturing setup in India is into manufacturing of personal care and hair care products. Other than office printing, they print high volume prints in the Transport and logistics department in the warehouses. Frequent Breakdowns in the MFP and print monitoring were the challenges which was hampering the productivity and shipment delays.

Technology Solution from Sharp

Sharp has provided 3 nos. MX-M265NV of Sharp MFPs with Job Accounting Software and Follow Me (Print from any location). These MFPs can take care of high volume printing without any hassle and has the facility to track the print usage.

Relying on Individual laser Printers/ Un-secured Network based MFPs, FMCG Company who has manufacturing plants across India faced issues with Print monitoring and frequent breakdown Issues. With the help of High Quality Sharp A3 Mono Laser MFPs combined with Job Accounting Software they are able to overcome these issues.
