## YOU'LL NEVER NEED TO ROLL DOWN THE WINDOW FOR FRESH AIR.

Introducing new Sharp  
Car Air Purifier with  
Plasmacluster Technology

**PLASMACLUSTER TECHNOLOGY**  
Air as Natural as Nature

Sharp Plasmacluster range includes  
Air Purifiers • Air Purifier + Dehumidifier • Air Purifier + Humidifier  
• Car Air Purifiers • Air Purifier + Mosquito Catcher

When the car smells bad you know instantly you need some fresh air or a car perfume to clear the odour. But a car perfume here only adds to the problem and rolling down your window brings in more air pollutants in the form of fumes, smoke and dust particles. While the AC Filter (Pollen filter used in Car AC unit) is capable of trapping some dust particles and smoke (approximately upto 10 microns) it fails to eliminate the bad smell and gases created inside by food, sweat, mold and exhalations from plastics and humans. In such a scenario when you use a car perfume it simply suppresses the odour, it doesn't remove it.

Sharp Car Air Purifier FP-JC2M solves this for you by employing certified and awarded dual technology to holistically eliminate variety of toxins and pollutants from the car to make your drive pleasurable. The set of HEPA and Carbon filters remove PM2.5 and gaseous substances while the award winning, safe and certified Plasmacluster Technology GENERATES Fresh Air, ELIMINATES toxic fumes, gases, molds and REDUCES static electricity, giving you the freshest air and an odourless car all-in-one.

For best results and superior airflow this unit can be conveniently placed on the back rest or arm rest of your car. Happy driving then!

Specifications	
Model Number	FP-JC2M-B
CADR	0.54 m <sup>3</sup> /min
Coverage Area of Plasmacluster	3.6m <sup>3</sup>
Suitable for Car/ SUVs	Yes
Power Input	Car Adapter (12V)
Installation Type	Back rest or Arm rest with belt provided
Operation mode	Auto/Low/Med/High
Power Consumption (W)	1.8 / 2.4 / 4.6 Low/Med/Turbo
Noise Level (dB)	26 / 32 / 42 Low/Med/Turbo
Filter type & Life	Carbon embedded Dust Filter - PM 2.5 (one year), Chemical Filter (one year) & Washable PM10 Pre Filter (lifetime)
Sensors	Clean sign Indicator & Odor Sensors. Light dimmer option available
Outer dimensions	184(W) x 77(D) x 243(H)
Weight	1.1Kg

### High-Density Plasmacluster Technology Removes Airborne Mold, Bacteria, Virus & Smell

Plasma discharge generates and emits the same positive and negative ions that occur in nature. Plasmacluster technology is Sharp's original air purifying technology that removes airborne mold, bacteria, viruses and odours. The benefits have been proven by official test institutions in Japan and around the world.

**SHARP IS COMMITTED.** Sharp continues to provide service support for all its air purifier models for a period of up to 5 years from their discontinuation.
