

# High-Density Plasmacluster Ions Remove Airborne Male **Remove Airborne Mold and Viruses**

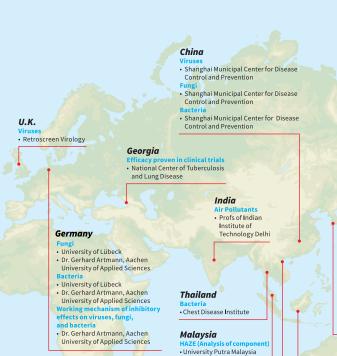

Plasma discharge generates and emits the same positive and negative ions that occur in nature. Plasmacuster technology is Sharp's original air purifying technology that removes airborne molds and viruses. The benefits have been proven by official test institutions in Japan and around the world.

Sumika Chemical Analysis Service

#### **CERTIFIED WORLDWIDE**

PLASMACLUSTER—GAINING TRUST AND NEW CUSTOMERS AROUND THE WORLD (TESTED BY OVER 30 INSTITUTES AND ORGANIZATIONS)

- Graduate School of Medicine, University of Tokyo / Public Health Research Foundation
   Faculty of Science and Engineering, Chuo University / Clinical Research Support Center

- Ishikawa Health Service Association
   Japan Food Research Laboratories
   Biostir Inc.
   Medical Mycology Research Center,

### U.S.A.

FP-J50M-H	
Air Purification System	High density Plasmacluster Technology with True HEPA & Active Carbon Filter
AloT (Wi-Fi) Enabled	Yes
Coverage Area (Sq Ft)	450 Sq Ft
Air Flow / CADR (m <sup>3</sup> / hr)	306 / 186 / 48 (High / Medium / Low)
Modes	Haze, Auto, Low, Medium & High
Pre - filter	Washable Fine - Meshed Filter
Filter Life	Upto 2 Years
Auto Restart	Yes
Sensors	PM2.5, Dust, Odor, Humidity & Light
Unit Dimensions (mm)	390 x 583 x 270 (W x H x D)
Net Weight (kg)	6.4 kg
Voltage & Frequency	220~240 V AC & 50 / 60Hz
Power Consumption (W)	39 / 14 / 4.5 (Max / Med / Low)
Noise Level (db)	51 / 39 / 15 (Max / Med / Low)
Warranty	2 - year ONSITE

# THE NEXT GENERATION OF AIR PURIFICATION IS HERE.

The Sharp QNET J50 is a Smart Air Purification System that comes with an app which connects the device to your smartphone.

Now you have the power to turn on your device anytime anywhere. Enjoy fresh air at the tip of your fingers. The Sharp QNET J50 has an effective coverage area of 450 sq ft. That makes it an ideal contender for bedrooms, living areas, offices, clinics etc. It's laced with the patented Plasmacluster Ion Technology that releases positive and negative ions to neutralise airborne particles, germs odour and other VOCs while spreading nature-like freshness in the surrounding. In the truest sense, it's your personal wellness expert.

HAZE \*Mode\*

Timer (OFF)

Humidity, Dust, Odor

HEPA Filter Deodorizing Filter

## The AloT Advantage

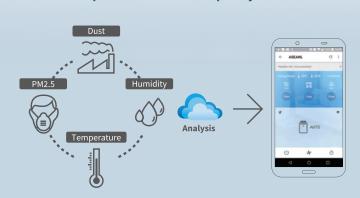

#### Use your phone as a remote device

#### Track air quality in your room

### **Automatic operation - based air quality**

#### **Monitor filter status**

#### **Filter with 3-Layer Protection**

- Pre-filter resists hair and dander from clogging the main filter
- Carbon filter removes toxic gases and odour
- HEPA filter resists particulate matter as small as 0.3 microns

### Haze Mode

Usually, HEPA filters trap particles in the fibre mesh making the filter less effective over time. However, the special HEPA filter with charged fibres in J50 traps these tiny particles. As a result, the airflow pressure remains constant which enhances filter life by up to 2 years. The washable pre-filter in J50 is up to 3 times denser so that particles as small as 10 microns may get trapped. This reduces the overall load on the main HEPA filter.

The haze / smog compounds of outdoor air primarily include hazardous gases (hydrogen sulphide, sulphur dioxide, nitrogen oxide, carbon monoxide toluene, ethylbenzene, xylene etc.) that are emitted from industries or vehicles, which none of the filters can reduce.
