

SHARP

Be Original.

**DON'T TAKE CLEAN WATER FOR GRANTED.
TAKE IT WITH YOU.**

Keep your family safe from harmful water with the portable
SHARP WJ-100 water purifying pitcher.

Water Purifier Pitcher WJ-100

This pitcher purifies up to 3.5 liters of water in a single go with 5 levels of filtration, removing all kinds of impurities and giving you pure and healthy drinking water on the go.

The 5 filtration stages to give you purity in every drop of water you drink

Mesh Pre-Filter

Removes rust, sand, sediment and other coarse particles.

Resin Layer-Softener

Reduces hardness. Also improves taste & aroma.

Dual Mesh Filter

This filter removes particles & impurities, and ensures there is no leakage in the filtration material.

Heavy Metal Remover

Eliminates heavy metals like lead.

Japanese Super ACF filter

Eliminates chlorine, colour, smells, chloroform and improves taste.

Benefits:

SEASONAL WATER PROBLEMS

Ideal for the monsoon season in areas with Total Dissolved Solids (TDS) levels of less than 300, as the season can still cause waterborne diseases where no other form of purification is used.

PORTABILITY

It can be used as a reusable mineral water bottle whenever you're away from your house.

AS AN ADD-ON WATER PURIFIER

It can further enhance the purity of filtered water, making it more bio available for your blood circulation system.

ENVIRONMENT FRIENDLY

You may also keep it in your guest rooms in hotels and hospitals, replacing plastic bottles, thus lessening your carbon footprint on the planet.

Specifications:

Product	Longevity	Flow Rate	Total Capacity
WJ-100	120 gallons of water	500ml/Min	3.5 liters of input storage
