

Automobile Manufacturing Company resolves Secure Print Release and Print Controlling and Monitoring issues through Sharp MFP's and MyQ

The Challenge

Automobile Manufacturing Company produces engines and auto-parts for cars. They print huge volumes related to R&D, production, warehousing, dispatching, imports, exports other than their normal office documents in the widespread factory premises. There is no track on print usage which leads to misuse of personal printing and confidentiality. Secure Print release and Follow Me Print was a huge challenge.

Technology Solution from Sharp

Sharp has provided 4 Nos. (MX-4051-1, MX-M356NV-3, MX-M350WZ-1) along with MYQ cost recovery software and Follow Me Print. Card authentication for secured print release and minimize the touch during pandemic. These MFPs can print from smart phones with Free Sharp Desk Mobile App (iOS, Android) .

Relying on Individual laser Printers/un-secured network based MFPs, Automobile Manufacturing Company faced issues with Print Controlling & Monitoring and Print Security issues in large campus. With the help of high quality Sharp A3 Color & Mono Laser MFPs combined with Cost Recovery Software.

Industry

Automobile
Organization
Autoparts Manufacturing Company

Challenges:

- Print Controlling & Monitoring
