

SHARP PROVIDED A SOLUTION TO ARIEL MICROBES AND CONTAMINANTS IN A RENOWNED FOOD PACKAGING COMPANY.

ABOUT TETRA PAK

Tetra Pak is a Swedish-Swiss multinational food packaging and processing company. It offers packaging, filling machines and processing solutions for dairy, beverages, cheese, ice cream and prepared food, including distribution tools like accumulators, cap applicators, conveyors, crate packers, film wrappers, line controllers and straw applicators. Tetra Pak India started operations in 1987.

CHALLENGE

Being a packaging solution provider for food and beverages, the biggest challenge was employee welfare. With the advent of the Corona pandemic, clean and hygiene plays a major role. This means with that not just the surface, but also the surrounding air needs to be free from contaminants, germs VOC's and cross-infection.

SOLUTION

Sharp installed a FU551 KE wall mounted air purifying solution at the conference room of the Tetra Pak factory located in Pune.

RESULT

After seeing the results before and after installation, a remarkable difference has been found in the air quality. In less than 2 weeks time, they saw a 97.8% PM10 reduction, a 96.2% reduction in PM 2.5 and a 72.8% reduction in PM1.

Special Comment

'The results are encouraging. So we plan to use these equipment in our main office building'
