*Elevate your lifestyle  
with Purefit.*

**Purefit**  
Pure Air, Pure Lifestyle

Elevating your *experience* through advanced *technology*.

## AIR PURIFIER FX-S120

Life and lifestyle both have changed. Unfortunately, so have the health hazards around us. The most prominent is the air quality, which has deteriorated. Even in our homes, we are not safe from it. Purefit constantly fights bacteria and viruses, to make your living space more comfortable.

## MODERN FEATURES ENHANCE YOUR HOME LIVING

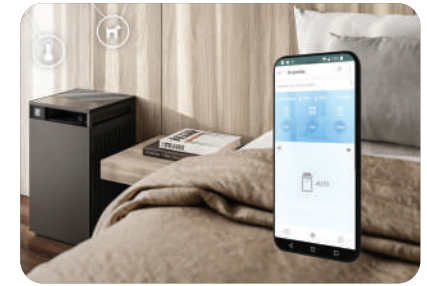

### DUAL SUCTION TRIPLE FILTER

Let your worries fly away. Purefit has triple filters to address all your concerns.

The **Electrostatic HEPA Filter** protects your lungs from harmful dust by capturing 99% of the tiny 0.02µm particles.

**Activated carbon Deodorizing Filter** absorbs all kinds of common household odours.

**Fine mesh pre-filter** Captures larger than approx—240-micron dust particles.

### AIoT

Purefit can be **connected to the wifi** and operated with mobile devices.

You can connect up to 30 units for collective management. Check the temperature, humidity, the degree of air pollution, and the condition of the filter anytime.

### SMART SENSORS

Purefit's smart sensors have features to **detect light, odour, humidity, temperature, and dust** particles and operate according to your requirement.

It turns the display monitor off while you sleep and operates powerfully while you cook to remove the smell.

### STYLISH DESIGN

The compact design and **aesthetic colour** blend in with all kinds of interiors.

The **natural grain texture** creates a soothing contrast with interior elements such as furniture, textured walls, soft fabrics, and green plants.

## COANDA AIR FLOW

Place your Purefit against the wall, and you'll witness the extraordinary power of its revolutionary **Coanda airflow** technology.

Meticulously engineered to reach every corner, it excels in dust collection through intelligent air circulation, maintaining a consistent **20-degree airflow pattern** throughout the room.

## LIBRARY QUIET

Undoubtedly, the greatest joy in life is a restful sleep, while the most vexing is its interruption by unwelcome sounds.

In **sleep mode**, Purefit resembles the serene hush of a library, offering you an undisturbed and tranquil night's rest, making it an invaluable asset for your well-being and comfort.

# YOUR PRODUCT, *DEFINED* CLEARLY

## PRODUCT SPECIFICATIONS

| Parameters                          | Specification                                |                             |
|-------------------------------------|--|-----------------------------|
| Air Purification System             | High-density Plasmacluster & dual filter set |                             |
| Applicable Floor Size               | 930 Sq. ft.                                  |                             |
| Modes                               | 6 (Auto/Pollen/Sleep/Low /Max/Med)           |                             |
| Power Input (Max / Med / Low) Watts | (72 /18/6.1)                                 |                             |
| Air Flow (Max / Med / Low) m3/hour  | (702 / 366 / 132)                            |                             |
| Noise Level (Max / Med / Low) dBA   | (55 / 40 / 23 )                              |                             |
| Special Program Mode                | HAZE mode/Auto restart                       |                             |
